

# Final Request

## Value Pac

Something's wrong inside  
her problems she can't hide  
I'm a victim of a good time  
my life is over now and it hasn't yet begun  
she left me here to die  
mommy don't go  
another casualty of irresponsibility is what's become of me  
so don't go saving me a seat in class today  
I'm a permanent absentee  
I wish I could go out and play  
but not today  
so just scratch my name off of the list  
'cause I'll never exist
