

Think About Me

Kastro

You take a lot of chances with your feelings
No one really knows what you feel
And fiction is the only way you're dealing
You turn your pretty head if it gets real Oh, you
You take it so slowly
And your eyes, looks so lonely
But it's only when you think about me
Oh yea, when you think about me
Think about me And I got a head, don't let me speak
You got a secret I can't keep
You see a little stranger in your mirror
The girl you never knew is what you fear Oh, you
You take it so slowly
And your eyes, looks so lonely
But it's only, when you think about me
Oh yea, when you think about me
Think about me And all you want is somethin' I can't be
All you want from me is what you need
And now I'm saying that you You take it so slowly
And your eyes looks so lonely
But it's only
Oh, you
You take it so slowly
Now it's only about me
When you think about me
Think about me When you think about me
Oh yea, when you think about me
Think about me yea, when you think about me
