

# I Will Never

## Light Up The Sky

How many words do I have to say?  
How many times did you walk away?  
I wanna feel, I wanna feel like I'm your only one  
And Now I'm lost under all the pressure  
Where are you now? I'm sinking down. And I won't fall in love...  
because I just wanna let you know that I will never, I will never, I'll never ever feel the same  
I will never, I will never. I'll never ever win this game  
I will never find a love like you again... Cause I wanna feel you one last time!  
I'm sick of everything you've done to me.  
But some how I can't find a way to let you go And I won't fall in love. because I just wanna let you know that I  
will never, I will never, I'll never ever feel the same  
I will never, I will never. I'll never ever win this game  
I will never find a love like you again... Cause I wanna feel you one last time! you know i like like like when you  
look at me...  
It never stops never stops cause it's just a dream You wanna go go go every time that you see  
You see me me me begging down on my knees  
So just wait wait wait and listen to me.  
Just listen to me! Cause I don't wanna feel alone  
And when I'm with you my heart just turns to gold.  
Cause I don't wanna feel alone  
So just take me away  
I will never, I will never, I will never ever feel the same  
I will never, I will never. I will never ever win this game  
I will never find a love like you again... Cause I wanna feel you one last time!  
Cause I wanna feel you one last time!
