

If Love Must Go

Dobie Gray

Another long and sleepless night
Turned to tears and morning light
Used up all ways to say Iâ€™m sorry
And even though weâ€™ve loved so much
Now we use the words to touch
Whatâ€™s left of love and turned it into pain
Once youâ€™ve opened up that door
You just canâ€™t close it anymore

Refrain

If love must go
How can I face the world I built around you
You took me up on golden wings
Let me feel the gentle things I love to feel
Ohhhhh, the world was you and me

What will I do

I used my love on you
Thereâ€™s no more for any other
And thereâ€™s no holding back these tears
Iâ€™m feeling all the years
Weâ€™ll never come to know
If love must go

If only we could turn around
Keep it all from falling down
Weâ€™d wake up in each otherâ€™s arms tomorrow
We canâ€™t put it all away
Call it just another day
When all weâ€™re holding in our arms is sorrow
When you forget what nights are for
You know itâ€™s no good any more

Refrain
