

# Trust Me Danny

## I LOVE MAKONNEN

[Intro]

Aye somebody might be pulling up  
Yeah, they did, yeah, aye, yeah  
Aye, yeah, aye, yeah, aye, yeah  
Aye, yeah, aye, yeah, aye, yeah[Hook]  
Called my plug on the phone like "Trust me Danny"  
I'mma take it out of town and bring you plenty  
They be ready for it, they be ready for it  
I be riding through the woods, city, and the forest  
I called my plug on the phone like "Trust me Danny"  
I'mma take it out of town and bring you feddy  
They be ready for it, they be ready for it  
I be riding through the woods, city, and the forest[Verse 1]  
I'm still busting on the highways breaking jugs down  
Still have 'bout fifty pills, still moving half a pound  
Shouts out to that southside, it still go down  
You can see me on old national, fucking with that brown  
Who god damn pull up, when's the last time you did?  
I was 'round there, I say, around like Easter bih  
All in my Easter fit, in front of Zaxby's  
Smoking on that blue shit, bitches come and catch me[Hook 1]  
I called my plug on the phone like "Trust me Danny"  
I'mma take it out of town and bring you plenty  
They be ready for it, they be ready for it  
I be riding through the woods, city, and the forest  
I called my plug on the phone like "Trust me Danny"  
I'mma take it out of town and bring you feddy  
They be ready for it, they be ready for it  
I be riding through the woods, city, and the forest[Verse 2]  
Smoking on a Backwoods, I feel like hood rich kids  
Shouts out DJ Spinz and the HoodRich team  
I be all in Atlanta, zone three to zone six  
Still posted up at the gas station with your bitch  
All in Atlantic Station, tell me where your destination?  
You know we can make it happen  
I'm the man, I feel like captain  
Ride around with that hoe, you know I got red and blue  
Shouts out to the...oh, shouts out to myself too  
Cause we out here doing it

All my shit the toolest  
Girl what you doing there? Fuck around and lose it  
Had that, uh, on there too, fuck around with that white  
We're gonna move it all tonight, all tonight[Hook 1]  
I called my plug on the phone like "Trust me Danny"  
I'mma take it out of town and bring you plenty  
They be ready for it, they be ready for it  
I be riding through the woods, city, and the forest  
I called my plug on the phone like "Trust me Danny"  
I'mma take it out of town and bring you feddy  
They be ready for it, they be ready for it  
I be riding through the woods, city, and the forest[Verse 3]  
I be still riding hard in my black van  
I remember switching lanes with no damn change  
Now a nigga got pinkie rings, it like six damn chains  
I don't even like to stunt, but I got us on the scene  
All those stupid ass hoes who was hating from before  
How you doing, how you doing? Get away from my door  
What's that shit to a butterfly? Now I fly off in the sky  
I'mma catch a red-eye, you be catching no eyes[Hook 2]  
I called my plug on the phone like "Trust me Danny"  
I'mma take it out of town and bring you feddy  
They be ready for it, they be ready for it  
I be seeing them in the in the woods, city, and the forest  
They be fiending for Makonnen all god damn night  
I give them that red dragon when I take off in flight  
They be ready for it, they be ready for it  
I be all in the woods, city and the forest[Outro]  
I called my plug on the phone like "Trust me Danny"  
Like "Trust me Danny, like "Trust me Danny"
