

# Let Your Hair Down

A.I.

Let your hair down  
When you're up in the club, don't want to get crunk  
Let your hair down  
When you think you're too cute to rock your own suit  
Let your hair down  
Why you sittin' at the bar actin' like you a star  
Let your hair down  
Quit stressin' your looks and rock to this hook  
I see you in the corner  
(See you in the corner)  
With your nose up high actin' all anti  
You're lookin' out of place  
(Lookin' out of place)  
What's the point, why did you come to this joint?  
You puttin' too much on it, yeah  
(Too much on it)  
(Your attitude ain't even wanted)  
Just have a good time  
(Have a good time)  
Relax and let the tension unwind  
Let your hair down  
When you're up in the club, don't want to get crunk  
Let your hair down  
When you think you're too cute to rock your own suit  
Let your hair down  
Why you sittin' at the bar actin' like you a star  
Let your hair down  
Quit stressin' your looks and rock to this hook  
Look over your shoulder  
(Look over your shoulder)  
Everybody's sweatin' you couldn't be colder  
Did you wear the wrong shoes?  
(Wear the wrong shoes)  
Is this party just too ghetto for you?  
Actin' like an outcast  
(Like an outcast)  
Frontin' like you just don't want to dance  
Why you trippin' when you  
(Trippin' when you?)

Brought yourself on you, ain't nothin' left to do but  
Let your hair down  
When you're up in the club, don't want to get crunk  
Let your hair down  
When you think you're too cute to rock your own suit  
Let your hair down  
Why you sittin' at the bar actin' like you a star  
Let your hair down  
Quit stressin' your looks and rock to this hook  
We keep it movin', it's movin'  
We keep it jumpin', it's jumpin'  
It's non stoppin', it's poppin'  
Now you feel the heat  
You need to get out of your seat  
You wanna bounce to this beat  
You need to get on your feet  
And just join in with me  
We keep it movin', it's movin'  
We keep it jumpin', it's jumpin'  
It's non stoppin', it's poppin'  
Now you feel the heat  
You need to get out of your seat  
You wanna bounce to this beat  
You need to get on your feet  
And just join in with me  
Let your hair down  
When you're up in the club, don't want to get crunk  
Let your hair down  
When you think you're too cute to rock your own suit  
Let your hair down  
Why you sittin' at the bar actin' like you a star  
Let your hair down  
Quit stressin' your looks and rock to this hook
