

# Done With Love (feat. Jacob Luttrell)

[Zedd](#)

Baby, if you're done with love, who's gonna hold you tonight?  
Are you done with love so they can't hurt you tomorrow?  
You don't wanna keep on swimming in the ocean you've cried  
But I won't let you drown, I'll pull you back to the shallow 'Cause all I ever really wanted  
In this short life was you  
Tell me who took your heart away  
And do you know it breaks mine when I hear you say  
That you're done with love?  
Oh, you are done with love Give me one night to mend the pain  
Because the second we touch, you'll forget the day  
You were done with love  
Oh, you were done with love  
If you're done with love Give me one night to mend the pain  
Because the second we touch, you'll forget the day  
You were done with love  
Oh, you were done with love All I ever really wanted  
In this short life was you  
All I ever really wanted  
In this short life was you Give me one night to mend the pain  
Because the second we touch, you'll forget the day  
You were done with love  
Oh, you were done with love If you're done with love Give me one night to mend the pain  
Because the second we touch, you'll forget the day  
You were done with love  
Oh, you were done with love  
You think you're done with love  
You think you're done with love  
You think you're done with love  
You think you're done with love
