

Wild and Blue

[John Anderson](#)

Way across town a phone rings off the wall
If you know he ain't home why do you keep callin'
You're gonna drive yourself crazy and you know that it's true
It's making you wild and blue Wild and blue it's no wonder
Look at the things that you do
They could just take you up to yonder
You're already wild and blue In somebody's room on the far side of town
With your mind all made up and the shades all pulled down
Someone is trying to satisfy you
He don't know you're wild and you're blue Wild and blue it's no wonder
Look at the things that you do
They could just take you up to yonder honey
You're already wild and blue It's four in the morning
And your all alone
With no place to go
Why don't you come home
I'll be right here baby waiting for you
I know you've been wild and blue Wild and blue it's no wonder
Look at the things that you do
They could just take you up to yonder honey
You're already wild and blue Wild and blue it's no wonder
Look at the things that you do
They could just take you up to yonder
