

# Devil In The Details

## Placebo

I've been wasting all my time  
With the devil in the details  
I got no energy to fight  
He is a fucking Power mind  
That devil in the details  
He is fixing up to take a bite  
I don't see the point in try  
I've got the devil in the details  
He's gonna teach me wrong from right  
That fucking power mind the devil in the details  
I'm gonna dance with him tonightAll of my wrongs, no more wicked ways  
Will come back to haunt me , come with me  
For all of the songs I hope to write someday  
Looks like the devil is here to stayLet me take you for a ride with the  
Devil in the details  
We'll kiss and tremble with the light  
Everything is fine with the devil in the details  
We're gonna dance with Him tonightAll of my wrongs, no more wicked ways  
Will come back to haunt me , come with me  
For all of the songs I hope to write someday  
Looks like the devil is here to stayLooks like the devil is here to stayAll of my wrongs, no more wicked ways  
Will come back to haunt me , come with me  
For all of the songs I hope to write someday  
Looks like the devil is here to stayI've been wasting all my time  
With the devil and the details
