Shine

Rosi Golan

This life is light, Its light burns bright
So well take it day by day and let it beAnd everyone will see how good it feels
Oh theyll see the world for all that it could beLet the sunlight in, I wanna feel it from within
You spin me around and make me feel like I could Shine, shine.So what do you say if the sky turned grey?
With a kiss youd send the rainclouds on theyre wayThis life is light, its light burns bright
Every moment is a moment you could say
