

Give Your Heart Away

The Black Keys

Follow you down, hold your hand
Make you realize I'm the only man
Who got to win and the way
To be the one, to give my heart away
Lady love, when you lay in the bed
There are men who will live your dismay
And be the one to give their heart away
I'm long gone in other space
And no one here will gonna take my place
So bye-bye, baby, I'm gone away
And no one there will give their heart away
