

Next Best Superstar

Melanie C

Sign a name, sign away every hour
Everyday you're living your dream
Play the game, take the blame
For the power and the fame You're living your dream
Sell your life, sell your soul
Telling everyone you know
You're living your dream And you know that you're good
'Cause they told you you could be
The next best superstar
And you know you can sing
And you'll do anything to be
The next best superstar
You're the next best superstar Make a joke, do the show
Where does all the money go?
You're living your dream
Crack a smile in denial
Throw your morals on the fire You're living your dream
Sell your life, sell your soul
Telling everyone you know
You're living your dream And you know that you're good
'Cause they told you you could be
The next best superstar
And you know you can sing
And you'll do anything to be
The next best superstar
You're the next best superstar Now you're broken
And how they brought you down
So now you're crawling out And you know that you're good
'Cause they told you you could be
The next best superstar
And you know you can sing
And you'll do anything to be
The next best superstar And you know that you're good
'Cause they told you you could be
The next best superstar
And you know you can sing
And you'll do anything to be
The next best superstar
The next best superstar

The next best superstar
