Down In It

Tiga

Lying here beneath me.
I could feel your soul.
Wrapped in understanding that was long ago.
Face to face.
Fast asleep.
Empty space.
Along i creep.
Why go on?
Even try.
You wake so innocently.
Then you rip the stars from the sky...
I'm down in it
Underneath with nowhere to hide.
I'm down in it.
All I want is you now.
That and nothing more.
Black eyes see right through you.
Farther than before.
Miles to go.
Before we sleep.
Diamond scars.
The things you weep.
Why go on?
Even try.
You smile as you leave me.
Broken, bleeding, wondering why...

I'm down in it
Underneath with nowhere to hide.
down in it.
down in it.
down in it.
down in it.
I'm down in it.
Miles to go.
Before we sleep.
empty space
along i creep
why go on

even try
why go on
why even try
yeaeaeah!
I'm down in it
Underneath with nowhere to hide.
I'm down in it
Broken, bleeding, wondering why...
I'm down in it
down in it
down in it
down in it
I'm down in it
down in it(down in it)
I'm down in it!!
