

Can't Get Enough

Snow

I know with my heart and soul
You are the one to fulfill all my needs
And when I'm with you, don't wanna leave you
And in the night time you're all that I dream
Because I love, love, I want, want, I need, need
It's gotta be love 'cause I just can't get enough
'Nough I want, want, I need, need
It's gotta be love 'cause I just can't get enough
She's got the look, everybody wants to know
But it's me she wants to show
Heartbreak no more as I found that special girl
That she brightened up my world
She's mine, all mine, and she belongs to only me
In my arms she's got to be
You know the score and when you're not here with me
It makes me want you much more
That's why I want you, I need you
Gotta, gotta, gotta have you and that special love
And girl, I want you, I need you
I wanted you, girl, it's the pleasing of your love, love
I want, want, I need, need
It's gotta be love 'cause I just can't get enough
'Nough, I want, want, I need, need
It's gotta be love but I just can't get enough
I really want, want, I need, need
It's gotta be love 'cause I just can't get enough
'Nough, I want, want, I need, need
It's gotta be love 'cause I get lost in your touch
Hey pretty little birdie, you got the look
Come down the line with mine, you got me hooked
Formerly, Snow and [Incomprehensible]
Well, look in your face and break me with the charm
That not the reason I would never fall in love again
My motto was love 'em and leave 'em in the end
Playin' on a gorgeous blond [Incomprehensible]
Sing them him [Incomprehensible] I'm about the same book
I hardly ever asked you but only in a favor
See if our love was a while, you sleep before you fail
Otherwise I'd be just like I was back then

Here I, here I, here I go because
I want you, I need you
Gotta, gotta, gotta have you and your special lovin?
Girl, I want you, I need you, I wanna feed you
And girl you know it's love, love
I want, want, I need, need
It's gotta be love 'cause I just can't get enough
'Nough, I want, want, I need, need
It's gotta be love 'cause I just can't get enough
'Nough, I want, want, I need, need
It's gotta be love 'cause I get lost in your touch, touch
I want, want, I need, need
It's gotta be love 'cause I just can't get enough
