

# Middle of the Night

## Taphephobia

Middle of the night hold on till morning  
We will see the light love is spawning  
Middle of the night hold on forever  
We'll know when it's right all togetherWhen will we listen  
When will we ever learn  
Read all about it  
This tide has got to turnMiddle of the night hold on till morning  
We will see the light love is spawning  
Middle of the night hold on forever  
We'll know when it's right all togetherOld folks and baby's  
They're crying in the storm  
I tried to tell them  
Soon they'll be safe and warmMiddle of the night hold on till morning  
We will see the light love is spawning  
Middle of the night hold on forever  
We'll know when it's right all togetherLord let us out of this hall full of mirrors  
Make it all clearer don't let us fall  
In the middle of the nightMiddle of the night new voices calling  
Saying it's alright I'm not falling  
Middle of the night halfway till morning  
Middle of my life new days dawningMiddle of the night hold on till morning  
We will see the light love is spawning  
Middle of the night hold on forever  
We'll know when it's right all togetherMiddle of the night new voices calling  
Saying it's alright I'm not falling  
Middle of the night halfway till morning  
Middle of my life new days dawningMiddle of the night hold on till morning  
We will see the light love is spawning  
Middle of the night hold on forever  
We'll no when it's right all together
