

# Familiar Realm

Cky

with the pressure on,intent is to run,  
when you're feeling ineffective and dumb,  
you bet it's true, the event is you,  
invaded by a swarm of confliction,  
been penciled, in but never begun,  
infected sense, the insistant one,  
if grieving is today, you've entered a familiar realm,  
with pesimistic views, you've entered a familiar realm,  
break out and carry on,  
if responsibilities are ignored,  
then the penalties will soon be endured,  
potential risks beyond control,

fortune isn't fame, you've entered a familiar realm,  
if they've told you who to be, you've entered a familiar realm,  
break out and carry on,  
invaded by a swarm of confliction,  
been penciled, in but never begun,  
potential risks are beyond control,  
if nothings left to say, you've entered a familiar realm,  
if they all get in the way, you've entered a familiar realm,  
if they've told you who to be, you've entered a familiar realm,  
fortune isn't fame, you've entered a familiar realm
