

Already Gone

Gerry Rafferty

Once I had a dream
I could lean upon
Nothings what it seems
It was already gone Dreams I shared with you
On our way back home
Watched it all come true
It was already gone I was waitin for the sun to shine
But every day would bring the rain
I was down but you changed my luck
And the dream was still the same I watched it fly away
Like a bird across the sky
Miles and miles and miles away
Yes, its already gone I was waitin for the sun to shine
But every day would bring the rain
I was down, but you changed my luck
And the dream was still the same I watched it fly away
Like a bird across the sky
Miles and miles and miles away
Yes, its already gone Yes, its already gone
Yes, its already gone
