

# Ten

## Citizen

raise Bellhollow's flag  
i feel the night creeping up  
tonight is the perfect night  
there couldn't be a better one  
powder up my skin  
make me admirable  
spark the match to begin  
drain out the methanol  
raise Bellhollow's flag  
your structure is overlooked  
the crowds, they fill up your stomach but you don't know what they took  
dress me out of ruth  
make me lovely  
i'll give my match to you  
we'll burn here happily  
burn  
raise Bellhollow's flag  
i feel our time is up  
be my only grave  
send me into the swarm  
cleanse myself of filth  
make me excellent  
let the inferno swell  
tonight i am definite  
burn
