

Bulletproof

The Afghan Whigs

Love, I can't hide but it's been easier since I said it now
Love, it don't end and I can't buy a friendI waited long the waiting's over
So get on down this time we go a little lowerThe sun has broke I stretch it out and throw some gas into the fire
To tell the truth, to tell it, well, it all depends upon the liar
And if I scream overboard I'm in this over my head
Or whisper sweet, baby, please, baby, please, am I dead?Every time I dream about you, baby, with your hands
all over me
I never forget anything, don't forget that I'm asleepGo to sleep it's over now a final prayer for my friend
You tell that fool to make it good you have to start at the end
And if I scream overkill I'm in this over my head
Or whisper sweet, baby, please, I must have meant what I saidEvery time I dream about you, baby, with your
hands all over me
I never forget anything, don't forget that I'm asleepAnd every time I dream about you, baby, with your hands all
over me
I never forget anything, don't forget that I'm asleepLove, I can't hide but it's been easier since I said it now
Love, it don't end and I can't see you, baby, it would never be my friendThis is love, this is love and I can see, I
can see
Don't you ever go away [Inaudible]Love,[Incomprehensible] you ever go away
[Incomprehensible] you ever go away
Love,[Incomprehensible] you ever go away
[Incomprehensible] ever go away
Here we go
