The Video Store

Fm Static

When I walked in to the room
I wasn't thinking anything but
Maybe I would rent a flick that a guy would
As I'm talking to myself I saw her
Reach for the top shelf right for the
Fade to black then I knew it was over
I fall apart, 'cause you've got a late charge on my heart
If it's alright with you, we'll meet in the 'Previously Viewed'
Sometimes I try to replay you in my mind
But who am I kidding here
I won't forget that time in the video store
That time in the video store
Now here we are in the second verse
Lookin' worst than the first
Don't wanna end up like my man Fred Durst
'Cause he did it all for the Nookie
When she looked up I thought I must be dreamin'
She had the eyes of an angel
Even think I might of saw wings, I'm leavin'
I fall apart, 'cause you've got a late charge on my heart
If it's alright with you, we'll meet in the 'Previously Viewed'
Sometimes I try to replay you in my mind
But who am I kidding here
I won't forget that time in the video store
That time in the video store
Every time I think I see you
I won't forget that nobody else
Could ever do what you did to me on that night
I saw you there so unexpected
I could care less who else was there
I've been infected, so infected by you
