

# Deepest Blue (Lee Cabrera Instrumental Mix)

## Deepest Blue

The sun will always shine on you  
You turn my ocean deepest blue  
I never hide my thoughts from you  
You're my deepest blueIf mother nature ever chose the name  
I'm sure that she would chose the same  
I never hide my thoughts from you  
You're my deepest blueAm I dreaming now  
Walking on the moon  
And I don't know how to read you baby  
Every time I try to move closerAm I dreaming now  
Walking on the moon  
And I don't know how to read you baby  
Every time I try to move closerWe've only got this time to prove  
That together we can make it through  
I'll never hide my thoughts from you  
You're my deepest blueIf temptation ever came my way  
I know the words I'd always say  
I'll never hide my love from you  
You're my deepest blueAm I dreaming now  
Walking on the moon  
And I don't know how to read you baby  
Every time I try to move closerAm I dreaming now  
Walking on the moon  
And I don't know how to read you baby  
Every time I try to move closerAm I dreaming now  
Walking on the moon  
And I don't know how to read you baby  
Every time I try to move closerAm I dreaming now  
Walking on the moon  
And I don't know how to read you baby  
Every time I try to move closer
