Nicotine Dreams

Laurel

[Verse 1:]
Sleep on the front lawn
God how we're so bored
Bodies lost inside the crowds
Drunk all our money
With nicotine dreamers
Heads lost inside the clouds[Hook:]
I said that I would wait for you forever
You said you'd die for me right now
You'd die for me[Chorus:]
Kingdom in love
I can tell by the way you say my name
I'm what you want
We're just nicotine dreamers out on the road
Say, oh Virginia
He's the king and I'm his queen
Best he's ever seen
Oh buttercup take the sun with me
You're the dark star in the sky[Verse 2:]
Saw the future in my crystals
I'm dancing with the devil
Picture me, with his crown
Getting lost in strip clubs
Baby, hallelujah!
Eveything I want, I've found[Hook:]
As I said I'd wait for you forever
And you said you'd die for me right now
You'd die for me[Chorus:]
Kingdom in love
I can tell by the way you say my name
I'm what you want
We're just nicotine dreamers out on the road
Say, oh Virginia
He's the king and I'm his queen
Best he's ever seen
Oh buttercup take the sun with me
You're the dark star in the sky[Verse 3:]
We're nicotine dreamers, wonder
Wide eyed boy, am i glamorous as pearls

and all the other girls?
Sell me out my lover, no other
makes me feel as sweet as you do
it's too much to loose[Chorus:]
Kingdom in love
I can tell by the way you say my name
I'm what you want
we're just nicotine dreamers out on the road
Say, oh Virginia
He's the king and I'm his queen
Best he's ever seen
Oh buttercup take the sun with me you're the dark star in the sky
