Come on Over

Institute

Steal your love as the good die young
Take what's yours before they come
All the right moves might
Still leave you in a wrong place
The strangest beauty's in the strangest places
Strangest beauty's in the empty spacesCome on through, come on over
You'd better not run or they shoot you down
And they're all over this townTake your shot as they're far between
Nature kills and so can we
You're walking a thin line
You're making me nervous now
Some thing's about to go so wrongCome on through, come on over
You'd better not run or they shoot you down
We all need satisfaction
And it's all over this townThe strangest beauty's in the strangest places
Strangest beauty's in the empty spacesCome on through, come on over
You'd better not run or they shoot you down
We all need satisfaction
And it's all over as we move closerSo come on through, come on over
Come on through, come on over
Over ,over, oh
