

You Don't Know My Heart

Rachel Platten

Hey! my fists are tight and I'm afraid
'Cause I cannot, I cannot explain
Your heart is like a hurricane
But can't you see I'm so in pain
Guess I'm not 'cause I don't talk
And then you write me off again
And I don't think you understand at all I don't wanna use my mouth
Don't know how to spell it out
Every time I try, it sucks
I just wish you could open me up
And see-e-e-e all the confusion
And the love, the hurt, the wrong words I'm using
'Cause tonight, it feels like Like you don't know my heart
You, you don't know, you don't know my heart
Feels like eh you don't know, you don't know my heart
You, you don't know, you don't know my heart
Feels like eh Why, you say I never really see
That it's only ever about me?
Like I don't listen when you speak
Like it doesn't kill me when your tears fall out
And I cannot catch it
And I do not have the perfect expression
And I don't think you understand at all I don't wanna use my mouth
Don't know how to spell it out
Every time I try, it sucks
I just wish you could open me up
And see-e-e-e all the confusion
And the love, and the hurt, the wrong words I'm using
'Cause tonight, it feels like Like you don't know my heart
You, you don't know, you don't know my heart (feels like eh)
You don't know, you don't know my heart
You, you don't know, you don't know my heart (feels like eh) Like you don't know my
Feels like eh
Like you don't know my
Feels like eh
You don't know, you don't know my heart (feels like eh)
You don't know, you don't know my heart
Feels like eh, eh, eh, eh I don't wanna use my mouth
Don't know how to spell it out

Every time I try, it sucks
I just wish you could open me up
And see all the confusion
And the love, the hurt, the wrong words I'm using
'Cause tonight, it feels like Like you don't know my heart (feels like eh)
You don't know, you don't know my heart (feels like eh)
You don't know, you don't know my heart (feels like eh)
You don't know, you don't know my heart (feels like eh)
Like you don't know my heart (feels like eh)
You don't know, you don't know my heart (feels like eh)
You don't know, you don't know my heart (feels like eh)
You don't know, you don't know my heart (feels like eh)
