

Same Old Thing

[Coco Montoya](#)

Same old thing, baby where ya been
It's that same old thing, woman where ya been
Been down, today's the day
I've been sitting here all alone, waiting by my telephone
It's the same old thing, woman where ya been
Same old thing, baby where ya been I've been up all night, waiting in vain
Without you baby, you know it just ain't the same
If I ever catch you running around
Ain't no need to plead
Send your soul on up to heaven
The rest belongs to me
Same old thing, baby where ya been
It's the same old thing, woman where ya been solo My patience has run out, my love gone bad
I started to leave you woman
But you're the best thing I've ever had It's the same old thing, baby where ya been
Same old thing, woman where ya been I've been up all night, waiting in vain
Without you baby, oh it just ain't the same
If I ever catch you running around
Ain't no need to plead
Send your soul on up to heaven
The rest belongs to me Same old thing, baby where ya been
It's the same old thing, woman where ya been
