

# Midnight Special

## Widespread Panic

Let the midnight special  
Let the midnight special  
Shine it's light on me  
Shine a light on me  
Let the midnight special  
Let the midnight  
Shine it's ever loving light on me  
Ever loving light on me  
Yonder come miss Rosey  
How in the world do you know?  
How in the world do you know?  
Well, I know her by her apron  
And the dress she wore  
Umbrella on her shoulder  
A piece of paper in her hand  
She gonna tell old John  
She want back her man, she want back her man  
Let the midnight special  
Let the midnight special  
Shine it's light on me  
Shine a light on me  
Let the midnight special  
Let the midnight  
Shine it's ever loving light on me  
Ever loving light on

If you ever go to Houston  
Yeah, you better walk right  
You'd better not gamble  
And sure thing better not fight  
The next thing you know the Sheriff gonna arrest you  
Some judge send you down  
And you can bet your bottom dollar  
Lord, you'll be chain gang bound, chain gang bound  
Let the midnight special  
Let the midnight  
Shine it's light on me  
Shine, shine, shine, shine  
Let the midnight special

Shine on  
Shine it's ever loving light on me  
Shine on me, yeah  
Let the midnight special  
Shine, shine, shine, shine  
Shine it's light on me  
Shine on me  
Let the midnight special  
Way into midnight  
Shine it's ever loving light on me  
Way into midnight, baby
