

Favorite

Don't look sexy but it just feels right
Not too dirty and it's not too tight
Why I never threw it out
I'll never know exactly why Keep it in the drawer beside my bed
It's faded pink now, but it used to be red
Starting to fray at the seams
But I know that you'll still love me Like you did, like you did
Like before, like before
Like we will, like we will
Be doin' it once more Oh baby know what you're like
You're like my favorite underwear
It just feels right, you know it
Oh baby know how you feel
You feel like my favorite underwear
And I'm slipping you on again tonight Leave you lyin' on the bedroom floor
I leave you hangin' on the bathroom door
Take you for granted
But I'll always know exactly where you are Lost you once you were hard to find
Got you back you didn't look like mine
Thought we were falling apart
But you make me feel so pretty Like you did, like you did
Like before, like before
Like we will, like we will
Be doin' it once more Oh baby, know what you're like
You're like my favorite underwear
It just feels right, you know it
Oh baby, know how you feel
You feel like my favorite underwear
And I'm slipping you on again tonight Slipping you on again tonight
Wrap me and roll me, hold me tight
Tear me apart and make me new
Like you always do Oh baby know what you're like
You're like my favorite underwear
It just feels right, you know it
You feel you're like this is what I want
You feel, you feel Oh baby know what you're like
You're like my favorite underwear
It just feels right, you know it
You feel you're like this is what I want

You feel, you feel And I'm slipping you on again tonight
