

That's The Way It Goes

Chubby Checker

Listen little brothers
To what I'm puttin' down
You know this world is a funny old world
And it just goes round and round
That's the way it goes
That's the way it goes
Oh Brothers, where it ends nobody knows
That's the way it goes
When you're a winner
You've got lots of friends
And everybody loves you so
But when things change
Your good luck ends
Where did everybody go?
That's the way it goes
That's the way it goes
Oh Brothers, where it ends nobody knows
That's the way it goes
You've got a baby
And you love her so
She says that you're her only pearl
Here comes your buddy and he says Hello
And its Goodbye little girl
That's the way it goes
That's the way it goes

Oh Brothers, where it ends nobody knows
That's the way it goes
Now listen little brothers
There's a game that you've been taught
Do everything like everybody else
But don't you ever get caught
That's the way it goes
That's the way it goes
Oh Brothers, where it ends nobody knows
That's the way it goes
Now that guy over there
He shouts all day
That he's gonna make the world fall down

But this old world is a funny old world
And it still goes round and round
That's the way it goes
That's the way it goes
Oh Brothers, where it ends nobody knows
That's the way it goes
That's the way it goes
That's the way it goes
Oh Brother, where it ends nobody knows
That's the way it goes
