

# That's What She Gets for Loving Me

**Brooks & Dunn**

She said what she wants is a man to be faithful  
A true heart somebody willin' and able  
To stay by her side through thick and thin  
A tender touch every now and then She's not hung up on fairy tales  
Or some dream at the bottom of a wishin' well  
Fancy cars or diamond rings  
What she wants most are the little things [Chorus]  
That's what she gets  
That's what she gets  
That's what she gets for loving me At times I lay awake at night  
Stare at her laying by my side  
Knowin' there in her heart as she sleeps  
She can forever count on me [Chorus] Whatever turns her on  
I'm here to do it  
Till the day they write my name in stone  
I'll live to prove it [Chorus: x2]
