

# Qualifications

## Billy Bragg

With my qualifications  
With my qualifications  
I could get me a job walking a dog  
Chopping a log, cleaning a bog  
With my qualifications  
With my qualifications  
I could see myself stacking a shelf  
As a sales assistant at do-it-yourself  
With my qualifications  
With my qualifications  
And my brother worked night and day  
At the Eurostar Terminal  
And the government gave it away  
So what's the point in University?  
For three years, I read philosophy  
Now I read bar codes all day long  
Beep, beep, beep sings that check-out song  
With my qualifications  
Talking 'bout my qualifications  
Would you like to see my Ph.D.?  
My BSE? My GCSE?  
I gotta first in physics so I ought to know  
If your fries are for here or to go
