

Archangel

Samhain

Go, Heaven sends me here to you
And if a-you fear you've reason to
Open up all seven seals
The beast is come to claim the youth Archangel, archangel
Defiant brood, defiant brood
I call on you Casted down my brethren
Rebels from authority
Power, pride, contempt and lust
All these things I give to you Archangel, archangel
Defiant brood, defiant brood
I call on you I am not your son of God
The prince of light will show no fear
Mine is that which rules this world
The beast is come, I am the end Archangel, archangel And when they cast out the brood
For the sin of pride misused
And when they cast down to Hell
Fucking brood Archangel, archangel Heaven sends me here to you
And if a-you fear you've reason to
Open up all seven seals
The beast is come to claim the youth Archangel, archangel
Archangel, archangel
Go, archangel
