

# Tops Off Party!

## Blackout

I feel the ropes are getting tighter  
It's not a bad idea  
These chains will never hold me down  
So let's just make this clear So step it up and make me fight it  
And I'll scare you all the time  
Don't stop, just carry on  
And I know I'll be just fine Love you and leave you's what I'll do  
One day I'm coming, not a clue You've tired me out  
By tying me down, woah, woah  
You've tired me out  
By tying me down, woah, woah You feel my hands are getting tighter  
Getting ever nearer  
Scream when you've had enough  
I couldn't see this clearer Your life is slipping through my fingers  
Push you up against the wall  
Do I stop or just carry on?  
Will you ever take it off? Love you and leave you's what I'll do  
One day I'm coming, not a clue You've tired me out  
By tying me down, woah, woah  
You've tired me out  
By tying me down, woah, woah I'm so close, scream for me  
I'm so close, scream for me  
I'm so close, scream for me You've tired me out  
By tying me down, woah, woah  
You've tired me out  
By tying me down, woah, woah  
You've tired me out  
By tying me down You've tired me out  
By tying me down  
You've tired me out  
By tying me down You've tired me out  
By tying me down  
Tying me down  
Tying me down
