No Name Girl

Metalwolf

I got a girl that ain't got no home
She ain't very fat just skin and bones
She don't cast no shadow because she's so thin
Never knows where she going
But she knows where she's been
She never knows where she going
But she knows where she's been
The girl I love ain't got no name
But I love her just the same
She's a little peculiar but it ain't no sin
She never know where she going
But know where she's been
She never knows where she going
But she knows where she's been
Never know where she going
But she knows where she's been
She's six feet tall and got long black hair
Runs around in her sack dress but I don't care
She got great big feet with size number 10
She never know where she going
But know where she's been
She never know where she going
But know where she's been
The girl I love ain't got no name
But I love her just the same
She's a little peculiar but it ain't no sin
She never know where she going
But know where she's been
She never knows where she going
But she knows where she's been
She never know where she going
But know where she's been
She never knows where she going
But she knows where she's been
She never know where she going
But know where she's been
She never knows where she going
But she knows where she's been
She never know where she going

She never knows where she going
She never know where she going
She never knows where she going
She never know where she going now
But she know where she's been
She know where she's been
She know where she's been
I know where she's been
