Staying In Love

Raphael Saadiq

When I met you, I said hello
We had a chat, here we go
I'm so good now, I feel your heart
When you kiss me, I hit the floor
I couldn't plan this, went on for days
And that's why I can't imagine when
I'm so grateful that you are here
I feel the sunshine when you appear
Girl you changed my life, my whole life around
You make me see, you make fun of me
See I never want this to die
All of life just should never ever end
Now there's war, to remove the floor
The more we listen, the more we know
Let's take a stand before taking three
For today, today is all we see, see
Falling in love can be easy
Staying in love is too tricky
Falling in love can be easy
Staying in love is too tricky
You know I love the way you hold me hard
I tell all the girls don't even try
I found the women of my life
I don't even have to think twice
Took me places baby I never go
'Cause I sit back 'cause she's a show
What I'm thinking she's thinking too
Girl I swear I'm never leaving you
When you put your hand in mine and you're in my hand
I know that we will be the best of friends
Who would have thought after all this time
We'd be searching for another life
How could love ever fool us both
After we took turns recitin' poems
Girl it makes me want to cry
'Cause now we're living separate lives, separate lives
Falling in love can be easy
Staying in love is too tricky, so tricky, baby
Falling in love can be easy

Staying in love is too tricky
Fallin' in love
Sho' enough gonna be tricky baby
We try, we try baby, see
Falling in love can be easy
Staying in love is too tricky
Falling in love can be easy
Staying in love is too tricky
