

# Emotion in Motion

## Naked Eyes

I've been wanting you again  
And there's no mistake  
Like a candle in the wind  
I've been blown away Emotion in motion, emotion in motion,  
Emotion in motion, driving me again. I don't sleep much anymore  
People don't seem real  
Either up, or on the floor  
What is this I feel? Emotion in motion, emotion in motion,  
Emotion in motion, driving me again. It's getting so hard to understand  
What is this feeling?  
It's getting so hard to understand  
Understand, emotion in motion, Emotion in motion, emotion in motion,  
Emotion in motion, emotion in motion,  
Driving me again
