

# Julep

## Punch Brothers

I died happy in my sleep  
I died happy in my sleep  
Our children around and you looking down  
from heaven's a julep on the porch  
heaven's a julep on the porch  
You and me rocking the grandfather clock is tick tick talking  
to the time we used to wind it

She brought the sugar and the mint  
She brought the sugar and the mint  
And he brought the whiskey  
Asked for my blessing  
"Yes sir, I know she's  
heaven's a julep on the porch"

Heaven's a julep on the porch  
You and me rocking the grandfather clock is tick tick talking  
to the time we used to wind it  
God the time we used to wind it

Now the time stands still  
We can drink our fill  
Out of silver  
That will never  
Tarnish like we will

You weren't just a girl that I should meet  
You were the girl that I would meet  
For drinks in the backyard  
A beautiful daughter  
A Lifetime of summer  
And love ever after  
I died happy in my sleep  
I died happy in my sleep  
Our children around and you looking down from heaven's a julep on the porch  
Heaven's a julep on the porch  
You and me rocking the grandfather clock is tick tick tick tick  
talking to the time we used to wind it  
God the time We used to wind it...
