

# Carry On

Elliot Minor

It's casting a silhouette as the shadow hits the wall  
Just buried and burning all of what we had before  
I'm slowly weakening  
I'm crushing out  
I'm holding on  
We fall down

CHORUS:

Carry on  
This isn't over  
What was i thinking of

I was out of line  
And now ill never  
Go carry on  
Carry on

You smoked your cigarette, the rains hitting it all fast  
Said ive had shallow days, but never have i felt lost  
I can't hide that something's gone  
But we don't need no gospel song  
And you know  
that I  
I just wanna

CHORUS:

Carry on  
This isn't over  
What was i thinking of

I was out of line  
And now ill never  
Go carry on  
Carry on

Until now  
All i can remember is the fire we burned out  
Burned cold as stone  
I'm feeling no sensation

I ain't alone without you

I just wanna

CHORUSX2:

Carry on

This isn't over  
What was i thinking of

I was out of line  
And now ill never  
Go carry on  
Carry on

On my knees  
Its just not worth living  
Im on my knees for you... X2

CHORUS fades to: I never said that, I wanna carry on. You never meant that. You never meant that.
