

Drifting

Trey Anastasio

I've been drifting for years at sea
But now, you've come along to rescue me
And the fog is lifted
We got the moon and the stars above Since you came along
(Love, love, love)
I'm back where I belong
(Love, love, love)
Since you rescued me
(Love, love, love)
The whole world is there to see 'Cause the storm is lifted
We got the moon and the stars above And in mornin' it's plain to see
Smell coffee in the air you're here with me I'm walkin' down the street
(Love, love, love)
The sun beams down
The grass is cool beneath my feet
(Love, love, love)
My head is spinnin' round and round and round 'Cause the storm is lifted
We got the moon and the stars above Stars above
Stars above
Stars above
...
