

We Use The Pain

Guano Apes

Could you step away? I'm a vicious girl
Could you fill the break?
We're on the right way, to swing the little axe
It's the right day, to give up the tax
We use the pain, for our fantasy
We need some pain, to find the right way
We love the pain and want some more of it
Control the pain, chicken head
Right way turning, listen we are learning
Head full of noise, chickens got no choice
Heds are rollin', chicken blood is stolen
The rest of the chicken, wants to picke-nicken
Could you feed your chicken?
'Cause I'm hungering
Drinks and chips for free
The muscles like Bruce Lee
We use the pain, for our fantasy
We need some pain, to find the right way
We love the pain and want some more of it
Control the pain, chicken head
Right way turning, listen we are learning
Head full of noise, chickens got no choice
Heds are rollin', chicken blood is stolen
The rest of the chicken, wants to picke-nicken
Painfull, the table's red, big storm and no regret
Dark side, we use the pain
Captain, we are lost insane
Mother, we cut the dump, mother
Mother, we all, we all, we all
Right way turning, listen we are learning
Head full of noise, chickens got no choice
Heds are rollin', chicken blood is stolen
The rest of the chicken, wants to picke-nicken
