

# Brand New

Mary J Blige

Oh Oh Oh Oh ooooooh Oh Now baby lately we work all day we work all night we get no play we don't spend time all we do now is dine and then pass each other and I.... I can't live this way now i'm maybe the first to go back and reverse the way that it's been put it all to an end let me rub you on your back tell me do you like that let's experience something different boy. And whatever you need me to do for you baby what ever it is I'll be and we can start this love over won't you come closer relax and let me be. you got so use to me boy tell me what can I do and if i need to change it up for you to make this brand new i know been on this same routine but i'll switch up my game for you baby. tell what can i do for you to make this brand new. Baby today is your day you can have it your way so put your feet up so i can show you how much your love means to me wanna give you a treat ain't nothing stopping us until the sun comes up and baby won't you let me cater to you and baby later we can rendezvous and baby i don't wanna let you go

so baby maybe we should take it slow.

and what ever you need me to do for you baby whatever it is i'll be and we can start this love over won't you come closer relax and let me be you got so use to me boy tell me what can i do and if i need to change it up for you to make this brand new i know we been on this same routine but i'll switch my game for you baby tell me what can i do for you to make this brand new. (i don't) I don't wanna get sick of you never having any time for i wanna give you what you need (i wanna give what you need) so you don't have roam the streets don't wanna get bored to death with this (don't wanna give up no no no) i just want all your love to give baby you know this love is true (tell me what i gotta do) you got so use to be boy tell me what can i do and if i need to change it up for you to make this brand new i know we been in this same routine but i'll switch up my game for you (i'll switch it up for you boy) baby tell me what can i do for you to make this brand new. you got so use to me boy tell me what can i do and if i need to change it up for you to make this brand new i know we been in this same routine but i'll switch up my game for you baby tell me what can i do for you to make this brand new. Oh Oh Oh Oh
