

The Twisting Knife

[Danko Jones](#)

I followed her and the suspicions in the night
She let me down on a path
That ended on this drive
We took it all away
A struggle will fall
They went from an impulse
And watch them crawl And the knife will keep twisting until I die
And the knife will keep twisting until I die I started running when the sun rolls up
I turn myself when I run out of love
Now that it's over
I leave it here all
No one passing that made me lose it all
And the knife will keep twisting until I die
And the knife will keep twisting until I die Instrumental One time, one time to change it all
Never to return
But I don't care
And they won Instrumental I followed her and the suspicions in the night
She let me down on a path
That ended on this drive
I started running when the sun rolls up
I turn myself when I run out of love
And the knife will keep twisting until I die
And the knife will keep twisting until I die
And the knife will keep twisting until I die
And the knife will keep twisting until I die
