

Roulette

Rolf KÄ1/4hn feat. Michael Brecker, Till BrÄ¶nner, Joa

Bet the black comes in red, crimes of passion rule my head

I need you, you want him, dressed to kill we live in sin

I know the game you play, I know it well

You just keep on playin' when all the bets are down

Roulette you're goin' round in a spin

Caught up in a game you can't win

Roulette, you're just a fantasy

It's everything that you want it to be

Play the numbers one by one, fire the shot and the damage is done

Restless lovers pay the price, cheating hearts don't think twice

When you make the rules no one can slow you down

You just keep on waiting when you're on the prowl

Roulette you're goin' round in a spin

Caught up in a game you can't win

Roulette, you're just a fantasy

It's everything that you want it to be

Roulette you're goin' round in a spin

Caught up in a game you can't win

Roulette, you're just a fantasy

It's everything that you want it to be

Back door runner got away this time

Leaves her mark at the scene of the crime

Nothing matters, no faces, no names

You're just a number, it's all the same

You just love to play the game

I know the game you play, I know it well

You just keep on playin' when all the bets are down

Roulette you're goin' round in a spin

Caught up in a game you can't win

Roulette, you're just a fantasy

It's everything that you want it to be

Roulette you're goin' round in a spin

Caught up in a game you can't win

Roulette, you're just a fantasy

It's everything that you want it to be

Roulette

Roulette
