

Got Your Number

Nadia Oh

Do you remember when we first met?
The way you looked I can't forget
I smiled at you and you smiled back
It felt just like a heart attack It happened time and time again
I couldn't wait to see you again
Your big brown eyes, your curly hair
And this is what I said, I didn't even care I know your name, I've got your number
I know your game and now I wonder
If you want me like I want you
I've got your name and I've got your number Now I don't know quite what to do
Cause all I think of is calling you
But do you feel the same way too?
Cause I know I am feeling you Don't get it twisted, I know I'm hot
Just need to know if you feel me or not
I know your name, I've got your number
And if you want me baby I can come over I know your name, I've got your number
I know your game and now I wonder
If you want me like I want you
I've got your name and I've got your number Just give me a call
I've got your number
I've got your number
Just give me a call
I've got your number All I wanna do is see you again
All I wanna do is see you again I know your name, I've got your number
I know your game and now I wonder
If you want me like I want you
I've got your name and I've got your number I know your name, I've got your number
I know your game and now I wonder
If you want me like I want you
I've got your name and I've got your number I've got your number, I know your name
I've got your number, I know your name
I've got your number, I know your name
I know your name, I've got your number
