

Still Cold / Pathway Private

Night Lovell

[Intro]

You don't even know guys 613

We reppin' it still

Yo me and Lovell we go way back in time, see?

You already know

After 96 we do it all day

Ball is life from time

Yea, yea[Verse 1]

Still checking at the place still cold

Moving in a way no place no snow

Straight chillin' with my niggas and shiver

Thinking about the sun lay thoughts on the riverMove back nigga, move back nigga

Fake Jordan-ass whack-ass bitch nigga

I come packed with eleven damn shots

I claim this city and I take your spotStay thinking about a white one

Thinking about a bright sun

That I changed straight from the dark shitNo take when I'm playing with the black gun nigga

You ain't never been a god since the last runNo stares in the place that's you

A lot of niggas tell me that I never really oweTrack track to the place back back nigga

Tell me that I'm like a nigga but my flow sicker[Bridge]

Calling

Calling

Calling

I'm calling

Calling

Calling

Calling

Shit!Yea! (Shit!)[Verse 2]

Dressed like a motherfucking god when I reach the spot (Shit!)

Niggas always tell me that I made it from the empty slot (Shit!)Change ways niggas no truth no plot

Fuck a white brand no top no spot

Đ;hase all day till the darts in the back

But my niggas fuck bitches in the back of the cabClaim riches but a nigga been whack

Never talk boy with your fake ass stackĐ;ash cash talking about cash cash nigga

When I throw that shade catch catch niggaLast time when I talked to a man

Well shit run quick slash slash for the neck niggaKnow I gotta make it out the cold for the best showPlease

don't try never show my pack

Bitch don't cry just move that tech

That's trash thought I'd never really say this

Caught my music on my ex bitch playlist
Bitches say 613 that's the greatest
But I never see no niggas ever famous
Fax-boy black boy trash boy trash boy
Ten fake bape hoodies fake face boy
Know I tell these niggas that I never do shit
But my thoughts never sick
So I'm never not slick nigga nigga
Watch me leave this place you stay
Think about the fault you made
Change the fucking shit you say
I may be back another day [Outro]
From the North side...
You started some like, some cold shit
And we run it
No more of that game stuff like
I'm done with that
