

Let the Rain Fall Down

YOHIO

I saw a place inside my dreams
It's calling out for me
Let's leave this world behind us until it's over
So let go of all your fears
It seems far but we're so near
So hold on to me my dear
'Cause to me it's all so clear
Take my hand and we'll be there
Let's run away from here
Far from all the sorrow
I'll be here to walk beside you
Let the rain fall down
To wash away your pain
So the sun can shine again
Mm, mm
Oh, oh
With a single smile
You light the stars above
Can you see them glow?
All for us
So many times I've lost my way
And finally I feel that I'm brave enough to listen to my heart
So let go of all your fears
It seems far but we're so near
So hold on to me my dear
'Cause to me it's all so clear
Take my hand and we'll be there
Let's run away from here
Far from all the sorrow
I'll be here to walk beside you
Let the rain fall down
To wash away your pain
So the sun can shine again
Mm, mm
Oh, oh
With a single smile
You light the stars above
Can you see them glow?
All for us
Let the rain fall down
To wash away your pain
So the sun can shine again
Mm, mm
Oh, oh
With a single smile

You light the stars above
Can you see them glow?
All for us
Can you see them glow?
