

# Jesus (Of Nazareth)

## (Hed) Planet Earth & (Hed) P.E.

Jesus

Jesus

Well, I can't believe a single word that you're saying  
I see your lips moving but nothing's coming out  
Who can believe a single word that you're saying  
I see your lips moving and but I can't figure it out  
I'm afraid of the crucifix hanging on my wall  
You hear yourself screaming but nothing's coming out  
I'm afraid of the shadows dancing on my wall  
I hear them laughing at me but I can't figure it out  
I know my limitations  
But I just don't know when to quit  
I know when I'm addicted  
But no, I can't get enough of that shit, what?  
Jesus, make everything all right  
Jesus, make everything all right  
Jesus, make everything all right  
Jesus, make everything all right  
Jesus, make everything all right  
Jesus, make everything all right  
Jesus, make everything all right  
Jesus, make everything all right  
Where'd everybody go?  
I know I'm losing  
Oh, where'd everybody go?  
I know I'm losing but I don't know what to do  
Sweet Jesus make it go away  
Mary, Joseph what I should I say? What do I do?  
When I was alone you just laughed at me  
I held out my hand, you just closed your eyes  
I only wanted to be good  
All I wanted was a chance to make things right  
I know my limitations  
But I just don't know when to quit  
I know when I'm addicted  
But no, I can't get enough of that shit, what?  
Jesus, make everything all right  
Jesus, make everything all right  
Jesus, make everything all right

Jesus, make everything all right  
Jesus, make everything all right  
Jesus, make everything all right  
Jesus, make everything all right  
Jesus, make everything all right  
Yeah, twenty thousand leagues deep on the mic  
Mass murder, court convicted, terroristic creature of the night  
No, don't let me get freaky tonight  
No, don't feed me tonight  
I been drinking way to much Jagermeister  
Mommy pray for me 'cause I'm not feeling right  
I've been hearing these voices  
They're telling me to take my own life  
Breathe my last breath, eat my last meal  
You got what you deserve, how's that feel?  
Jesus, make everything all right  
Jesus, make everything all right  
Jesus, make everything all right  
Jesus, make everything all right  
Jesus, make everything all right  
Jesus, make everything all right  
Jesus, make everything all right  
Jesus, make everything all right  
Jesus, Jesus, Jesus  
Make everything all right
