

I've Never Been So Sure

Restless Heart

I see the questions in your eyes
Is this love we feel?
I don't need to wonder why
I just know it's real
So where do we go from here?
How do I make it perfectly clear?
I've never been so sure
My heart knows you're gonna be the one
Love's never felt like this before
And I've never been so sure
I don't know where this road's gonna take us
Or what tomorrow might bring
I just know that we're gonna make it
'Cause I've gotta heart full of dreams
And there's nothin' we can't do
As long as you've got me and I've got you
I've never been so sure
My heart knows you're gonna be the one
Love's never felt like this before
And I've never been so sure
There's not a doubt in my mind
This love will stand the test of time
I've never been so sure
My heart knows you're gonna be the one
Love's never felt like this before
And I've never been so sure
I've never been so sure
My heart knows you're gonna be the one
Love's never felt like this before
And I've never been so sure
I've never been so sure
My heart knows you're gonna be the one
Love's never felt like this before
And I've never been so sure
