Stay Awake (Dreams Only Last for a Night)

All Time Low

Caught in a cold sweat stuck splitting hairs
I'm drinking too much
I'm on my way to striking outGo to sleep with the pressure of everyone
Watching, waiting, they're yours for the taking
But I still have my doubtsBefore you ask which way to go
Remember where you've beenStay awake, get a grip and get out
You're safe from the weight of the world
Just take a second to set things straightI'll be fine even though I'm not always right
I can count on the sun to shine
Dedication takes a lifetime
But dreams only last for a nightFigure it out boy, you're tripping
So pull yourself together
Or you'll wash up like the restThis ship is sinking, I'm thinking I'm done for
I watch as the sails disappear underwater
'Cause I'm no captain yetI said, "Before you ask which way to go
Remember where you've been"Stay awake, get a grip and get out
You're safe from the weight of the world
Just take a second to set things straightI'll be fine, even though I'm not always right
I can count on the sun to shine
Dedication takes a lifetime
But dreams only last for a nightBelieve you me, I'll give them everything
I'd tell them anything to show them everything
Believe you me, I'll give them everything
I'd tell them anything to show them everything'Cause you ain't the only ones who wanna live it up
You ain't the only ones
You ain't the only ones who wanna live it up
You ain't the only onesYou ain't the only ones who wanna live it up
You ain't the only ones
You ain't the only ones who wanna live it up
You ain't the only onesStay awake, get a grip and get out
You're safe from the weight of the world
Just take a second to set things straightI'll be fine, even though I'm not always right
I can count on the sun to shine
Dedication takes a lifetime
But dreams only last for a night
