

Droppin' Plates

Disturbed

Ha, well here we go again, get up
A little somethin' for your earhole, get up
Baring a part of my soul again, get up
Disturbed in the house, were droppin' plates
You said it couldn't be done
Told me that it's the kind of battle
That just couldn't be won, you know
You're too sick, too hard, too fucked in the head
You'll never make it, no, not in this lifetime
Well guess again my friend
Don't act surprised
We got the bass drum kick
That will blow out your eyes ha,
'Cause when you hear this shit
You'll get to steppin'
Gonna fight the war
And use my music as a weapon
You know I'm talkin' bout (recognition)
You know I'm talkin' bout (vindication)
Another goddamn slap in the face
Don't wanna give us a place
Are you afraid? Well fear this,
'Cause I'm breakin' through the walls of your nightmare
Wake up time to die
The way your livin' there is no compromising it
Better get ready for
Another surprise in it may leave a mark
Because I'm coming fast
Plantin' thoughts in your mind
And droppin' plates on your ass
Well here I come
I'm droppin' plates on your ass bitch
You never mind and you don't need this
Said here I come
I'm droppin' plates on your ass bitch
You never mind and you don't need
Well on your mark, here we go again, hey ya, ya
Well never mind 'cause you're not a number one, oh ya, ya
You're too hard and from the other side, hey ya, ya
I think it's time to bring it home again
Right to me
Well on your mark, here we go again, hey ya, ya
Well never mind 'cause you're not a number one, oh ya, ya
You're too hard and from the other side, hey ya, ya
I think it's time to bring it home again

Right to me You know I'm talkin' bout recognition
You know I'm talkin' bout vindication Here I come
I'm droppin' plates on your ass
Well here I come
I'm droppin' plates on your ass
Said here I come
I'm droppin' plates on your ass
Now here I come
I'm droppin' plates on your ass
Plates on your ass bitch
Plates on your ass
Well here I come I'm droppin' plates
I'm droppin' plates
Plates on your ass bitch
Plates on your ass
Here I come
I'm droppin' plates
And I'm droppin plates in me
Well on your mark
Now here we go again
I'm droppin' plates
I use my music, my weapon
I'm droppin' plates
Break through the walls of your nightmare
I'm droppin' plates
Well here we go
We're droppin' plates
