

Everything You Need

Slightly Stoopid

Like walkin on the moon was such a good feeling
Lysin in bed and Im staring at the ceiling
Cant wake up on Monday morning
Thinkin about what makes me yawn andAs I look outside its raining, pouring
Cats and dogs I wanna do no more an
When I gotta get up an get out my bed
Rather sleep in late and smoke a b-load insteadCause the harder you try, less you succeed
Dont try at all and get everything you need
Cause the harder you fall, more its gon bleed
Watch where you steppin
Cause you best not step on meI said the harder you try, less you succeed
Dont try at all and get everything you need
Cause the harder you fall, more its gon bleed
Watch where you steppin
Cause you best not step on meCause if youre ugly on the outside, it dont matter
If youre beauty on the inside, it overpowers
If the beauty on the outside, it wont matter
If youre ugly on the inside, baby dont want itAnd if you the type of person getting no recognition
Reach inside your pockets
And then all your money missin an
You wanna shoot your guns but you got no ammunition
Open up your mind and find its time to take a listenThe harder you try, less you succeed
Dont try at all and get everything you need
Cause the harder you fall, more its gon bleed
Watch where you steppin
Cause you best not step on meI said the harder you try, less you succeed
Dont try at all and get everything you need
Cause the harder you fall, more its gon bleed
Watch where you steppin
Cause you best not step on meIts always hard when youre working for the other man
Tyrin to make a dollar with the palms of my empty hand
It seems so easily but it never seems to last long
Thinkin thatcha got it for a minute then a minutes goneThe harder you try, less you succeed
Dont try at all and get everything you need
Cause the harder you fall, more its gon bleed
Watch where you steppin
Cause you best not step on meI said the harder you try, less you succeed
Dont try at all and get everything you need
Cause the harder you fall, more its gon bleed

Watch where you steppin
Cause you best not step on me
